

workshop: **TSEs in animals and their environment**

8th September 2010

Venue : **Salzburg Congress Centre. Room: Wolf-Dietrich Saal**

12:30-13:30 **Registration**

13:30 **Opening remarks** – Edward Hoover

SESSION I: session leader: Edward Hoover

- 13:40-14:00 P1. **Developments in Goat TSEs.** Jan Langeveld.
14:00-14:20 P2. **Scant and variable PrP^{Sc} in placentae of goats with natural scrapie.** Katherine O'Rourke.
14:20-14:40 P3. **Nervous dissemination of BSE in orally infected goats.** Frederic Lantier.
14:40-15:00 P4. **Epidemiological and pathogenetical aspects of an outbreak of scrapie in goats.** Lorenzo Gonzalez.
15:00-15:20 P5. **Experimental bovine spongiform encephalopathy: detection of PrP^{Sc} in the small intestine relative to exposure and age.** Mick Stack.
15:20-15:40 P6. **Biochemical and biophysical characterization of different CWD isolates.** Martin Daus.

15:40 – 16:00 coffee break:

SESSION II: session leader: Mick Stack

- 16:00-16:20 P7. **White-tailed deer are susceptible to sheep scrapie by Intracerebral Inoculation.** Justin Greenlee.
16:20-16:40 P8. **Detection of PrP^{cwd} in rocky mountain elk feces using protein misfolding cyclic amplification.** Bruce Pulford.
16:40-17:00 P9. **Detection of CWD prions in salivary and urinary tissues of deer: potential mechanisms of pathogenesis and prion shedding.** Nicholas Haley.
17:00-17:20 P10. **Comparative susceptibility of sheep to scrapie and BSE might explain why the BSE agent does not circulate in the European sheep population.** Romolo Nonno.
17:20-17:40 P11. **Scrapie control in Italy: which selective breeding strategies will work?** Francesca Baldinelli.
17:40-18:00 P12. **Successful oral transmission of atypical scrapie in sheep.** Marion Simmons.

Closing remarks: Jan Langeveld

18:00-20:00 Buffet: "Prion Mixer" from 18:00-20:00 in the **Ausstellungs foyer** at the Salzburg Congress Centre.
